

# Welcome to the Quest for the Union Cup

Welcome to the Quest for the Union Cup, our student employee competition! You may notice "tributes" running around the building this year competing for points and ultimately the Union Cup!

This series of challenges promotes interaction between full-time staff and students and encourages students to meet peers outside of their departments.

The 2014-2015 theme is The Hunger Games, and each student is a member of a district team. Districts earn points for professional characteristics while working and while participating in events outside of work, such as scavenger hunts, decorating contests, and trivia rounds. By rewarding student employees for excellent job performance, this program creates opportunities for enhanced group collaboration at the Union and prepares students for post graduate plans.

See the official welcome below from Effie Trinket... also known as our director Crystal King!
