On Sunday, June 19th, our country will be observing Juneteenth. President Biden signed legislation last year making Juneteenth a federal holiday. Juneteenth commemorates the official ending of slavery in the United States. African Americans have been celebrating Juneteenth since the late 1800's.

The New York Times published an article entitled Juneteenth: The history of a New Holiday written by Derrick Bryson Taylor. The article provides a brief guide about Juneteenth highlighting how it began, how it is celebrated, the path to the day becoming a national holiday and why it has become so important.
