- An open and honest mind!
The LEAD Workshop series is grounded in the principles of the social Change Model of Leadership and its 7 C’s (See below). In the SCM, an individual can enter the process at any point: as an individual, as part of a group, or as a member of society. Within each component, you will find values that are important to creating change. Change is the hub which the SCM revolves around.
The C's for This Workshop

**Consciousness of Self**
This workshop aims to prepare leaders to consciously understand and assert their needs as an act of respect for themselves, their peers, and their wider social circles. Students will be able to identify their needs and effectively communicate them to others.

**Congruence**
This workshop focuses on treating one's self with the same respect as one does to others; to do so is to display congruence of one's values across all people.
INSTRUCTIONS (PART 1)
